Freeze Information: The freeze on applications extends 70 miles outside of the affected NPSPAC region(s) into adjacent regions that may be in a different Wave. This chart contains the actual freeze start and end dates set forth by the FCC in the Public Notices announcing the start of the voluntary negotiation period for each Wave/Stage. The dates provided by the TA are for general guidance only. The dates for the end of the freeze are subject to change. Licensees therefore should not rely upon the freeze end dates and should confirm these dates before filing applications with the FCC.

* This chart does not provide dates for reconfiguration or the freeze in the U.S.-Canada or U.S.-Mexico border areas.
