Information for TA to transmit to/obtain from Sprint:

Notes: 800 MHz licensees who are required to relocate have the option to either negotiate Planning Funding Agreements and Frequency Reconfiguration Agreements directly with Sprint, or to ask the TA to assist in the transmission of documents and other information to and from Sprint. If requested, the TA will merely act as a "conduit" and cannot unilaterally bind Sprint or any 800 MHz licensee to any obligation associated with reconfiguration. By acting to transmit communications between you and Sprint, the TA is not serving as the agent, attorney, or other representative of either party and specifically disclaims any such capacity. Use of the TA should not be considered a substitute for legal or other expert subject matter representation in negotiations. The TA strongly encourages direct negotiations between 800 MHz licensees and Sprint as the fastest and most effective and efficient method for reaching agreements. The TA will copy both parties on communications relating to this matter, as appropriate.
